

CITIES IN A WORLD ECONOMY

Third Edition

Saskia Sassen *University of Chicago*

The **Third Edition** of the international bestselling **Cities in a World Economy** presents sociologists with a new perspective on the study of urban sociology. The decentralization and privatization of the world's economies has radically altered such things as the organization of labour, the structure of consumption and the distribution of earnings in ways that have yet to be fully realized. In a world economy that is truly more global than it has ever been, Saskia Sassen addresses the need to account for the global economies increasing influence on the social structures of cities.

Key features include:

- a multidisciplinary perspective. This book features a cross-disciplinary approach to urban sociology using global examples;
- a new chapter: **Global Cities and Global Survival Circuits** discusses the highly gendered and unequal nature of the global city and how it forces the underprivileged to live a dangerous and unpredictable life on global survival circuits;
- the most recently available data. This **Third Edition** updates nearly every piece of data with the most recent facts and figures available. In addition, it introduces new concepts for understanding contemporary urban sociology.

Contents

Place and Production in the Global Economy / The Urban Impact of Economic Globalization: The Global Economy Today Strategic Places Conclusion: After the Pax Americana / National and Transnational Urban Systems: Impacts on Primate Systems: The Case of Latin America and the Caribbean Impacts on Balanced Urban Systems: The Case of Europe Transnational Urban Systems Global Cities and Diasporic Networks Conclusion: Urban Growth and Its Multiple Meanings / The New Urban Economy: The Intersection of Global Processes and Place: Producer Services The Formation of a New Production Complex Impact of the Late 1980s Financial Crisis on Global City Functions: The Case of New York City Conclusion: Cities as Postindustrial Production Sites / Issues and Case Studies in the New Urban Economy: The Development of Global City Functions: The Case of Miami The Growing Density and Specialization of Functions in Financial Districts: Toronto The Concentration of Functions and Geographic Scale: Sydney Globalization and Concentration: The Case of Leading Financial Centers Why Do We Need Financial Centers in the Global Digital Era?
